Co-Founder, Interisle Consulting Group

Dear Lyman,

Thank you for your [letter dated 25 January](#) regarding Interisle's recently published report, "WHOIS Contact Data Availability and Registrant Classification Study: A Study of the Effects of GDPR and ICANN Policy". The ICANN Board appreciates you bringing this study to our attention.

We noted the participation of the GNSO Business Constituency, along with the other sponsoring organizations, in the study. We expect that the study will be a source of discussion as part of the ICANN community's ongoing work regarding gTLD registration data.

Regards,

Maarten Botterman, Chair  
ICANN Board of Directors
