4th March 2015

Dear Steve,

I wanted to thank you for taking the time to meet with me in Singapore, which I found to be very informative and a useful discussion.

Certainly this is a very important time for ICANN and my first meeting was heavily dominated by discussions with other ccTLDs about the way forward. This has helped me get a much better understanding about how Nominet can contribute most effectively to the discussions. The IANA transition is a real opportunity for the industry and for showing that the multi-stakeholder model can work, I am fully committed to trying to ensure that it is a success.

Nominet are keen to partner with ICANN where possible and would be happy to pick this up again with you or a member of your team when we meet again in Buenos Aires.

Yours sincerely

Russell Haworth
Chief Executive Officer
