**Re: ICANN Board Governance Committee ("BGC") Meeting of 5 December 2016 and Timeline
       for ICANN Board Final Decision in the *Dot Registry LLC v. ICANN* IRP Panel Declaration**

Dear ICANN Chairman Crocker and Board of Directors:

We write to you regarding the recent 5 December 2016 meeting of the ICANN Board Governance Committee ("**BGC**"). Dot Registry seeks ICANN's confirmation and commitment that it will make any and all such information and documents (including the metadata for electronic documents) referencing or relating to Dot Registry's community applications for .INC, .LLC, and/or .LLP available to Dot Registry, consistent with ICANN's transparency obligations under its Bylaws. By this letter, Dot Registry requests any and all such information referencing or relating to Dot Registry's community applications for .INC, .LLC, and/or .LLP in the 5 December 2016 BGC meeting.

Dot Registry also seeks from the ICANN Board a timeline and commitment on when it will reach a final decision in the *Dot Registry LLC v. ICANN* Independent Review Process ("IRP") matter[1]. To date, it has been 130 days since the *Dot Registry LLC v. ICANN IRP* Panel issued its Final Declaration. Despite numerous correspondence and Board Resolutions, the ICANN Board has yet to provide Dot Registry with any meaningful remedy to address the harms that Dot Registry has suffered at the hands of the ICANN Board, ICANN Staff, and the EIU in the handling and treatment of Dot Registry's community applications for .INC, .LLC, and .LLP.

Dot Registry finds ICANN's actions/inactions to date in the *Dot Registry LLC v. ICANN* matter unacceptable and reserves all of its rights to pursue any and all remedies against ICANN in any court of competent jurisdiction.

Sincerely,

Shaul Jolles
CEO
