Dear Ms. Hakansson:

**RE: Release of single-character domain for .COM for RSEP ID: B6H5U-2X7N1**

---

Thank you for your letter dated February 2, 2018, which was in response to our letter to you dated December 22, 2017.

In our aforementioned correspondence dated, December 22, 2017, we asked two (2) specific questions, and it appears that your aforementioned correspondence was unresponsive to them.

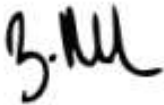

Accordingly, we would kindly request that you provide your specific answers to our specific questions, which are repeated below for your ease of reference:

1. Will this matter be referred to the ICANN Board for consideration, since it involves material changes with respect to pricing, renewals, and the availability of single letter .COM domain names?
2. Are the circumstances of this Proposal such that any Amendment to the .COM Registry Agreement will be posted for a Public Comment Period, particularly because; a) this Proposal potentially sets a new precedent; b) has a substantial effect on third parties, including intellectual property owners who may have trademark rights corresponding to the .COM domain name to be

auctioned, and to domain name registrants who have an interest in the creation of any new purported pricing and availability models in a legacy TLD?

We look forward to your reply.

Yours truly,
