

Dear Registry Operator,

Please be advised that ICANN has issued and posted the Notice of Termination of the Registrar Accreditation Agreement with Net 4 India Limited (IANA 1007). Upon the termination effective date, 13 March 2021, ICANN org will activate the [De-Accredited Registrar Transition Procedure](#) (DART-P) and will work to select a gaining registrar as quickly as possible. We will provide an update when one is available.

In the spirit of cooperation and support for registrants, in the interim **we kindly request that registry operators do not delete affected registrations that may be set to expire until the gaining registrar has been put in place and has had a chance to reach out to those registrants.**

For reference, the DART-P section 2.1 states: “before the procedure is invoked, ICANN will have taken steps to help ensure as smooth a transition as possible, by conducting an assessment of the availability of registration data (either through the registrar data escrow program or otherwise) and working with registries to ensure registrations are not deleted due to the actions or inaction of a de-accredited registrar.”

Thank you for your support, and if you have any questions, please do not hesitate to contact [globalsupport@icann.org](mailto:globalsupport@icann.org).

Kind Regards,

ICANN GDD Accounts and Services Team
