

Appendix A: MSR Updates for Latin Script

When the work of Latin Generation Panel started the Maximal Starting Repertoire (MSR) version was 2 (MSR-2). As a result of the investigation and analysis of the languages, the Panel requested an extension of MSR with the six code points in table A1 below. Three of those were accepted by the Integration Panel (IP) and could therefore be included in the repertoire. The other three were rejected and could not be included.

In October 2018, the Panel discovered three further code points needed for Venda language, but not included in MSR (MSR-3). The Panel then requested the inclusion of the three code points in table A2 below to the IP on 2018-10-10.
