

~~Whois Data Reminder Policy~~

Registration Data Reminder Policy

Updated 21 February 2024 to reflect changes required to implement the Registration Data Policy. This policy was previously known as the Whois Data Reminder Policy. Contracted parties may implement this updated Policy beginning on 21 August 2024 and must implement no later than 21 August 2025.

At least annually, a registrar must present to the ~~registrant~~Registered Name Holder the current ~~Whois information~~Registration Data, and remind the ~~registrant~~Registered Name Holder that provision of false ~~Whois contact~~ information can be grounds for cancellation of their domain name registration. ~~Registrants~~Registered Name Holders must review their ~~Whois data~~Registration Data, and make any corrections.

Notes

Introduction: The Registration Data Reminder Policy (RDRP) (formerly Whois Data Reminder Policy-(WDRP) was adopted by ICANN as a consensus policy on 27 March 2003. All ICANN-accredited registrars must comply with the ~~WDRP~~RDRP with respect to registrations they sponsor in all top-level domains for which they are accredited. Details of compliance requirements are provided below.

Process by Which the Policy Was Adopted: The ~~WDRP~~RDRP was established as a consensus policy by ICANN Board [resolution 03.41](#), which was adopted by a [13-1-0 vote by ICANN's Board of Directors on 27 March 2003](#). It was one of four policies concerning Whois issues that the Generic Names Supporting Organization (GNSO) Council, by a 21-3-0 vote on 20 February 2003, recommended be established as consensus policies.

The GNSO Council and Board votes were based on the Final Report of the GNSO Council's Whois Task Force on Whois Data Accuracy and Bulk Access. That report documented the extent of agreement and disagreement among impacted groups, the outreach process used to seek to achieve adequate representation of the views of groups that are likely to be impacted, and the nature and intensity of reasoned support and opposition to the proposed policy.

The report was posted on the ICANN web site on 11 March 2003, with a call for public comment. [Various public comments](#) were received and considered by the Board, and

the report was discussed at the [ICANN Public Forum session held in Rio de Janeiro on 26 March 2003](#).

Pursuant to [Resolution 03.42](#), notice of the adoption of this policy was given to all registrars on 16 June 2003.

~~**Time for Coming into Compliance:** As provided in subsections 3.7.8, 4.1 and 4.4 of the ICANN Registrar Accreditation Agreement, all ICANN-accredited registrars must come into compliance with the WDRP by their "Compliance Date", as described in the next two sentences. The Compliance Date for registrars accredited before 16 June 2003 is 31 October 2003. The Compliance Date for registrars accredited after 16 June 2003 is the effective date of their accreditation agreements.~~

~~Beginning on its Compliance Date~~From the policy effective date, each registrar must provide, before the passage of the anniversary of the creation date of each registration the registrar sponsors, a ~~WDRP~~WDRPRDRP Notice (described below) to the ~~registrant~~Registered Name Holder for that registration. By way of example, a registrar with a Compliance Date of 31 October 2003 is required to give a ~~WDRP~~WDRPRDRP notice for registrations it sponsors on the following schedule:

Compliance Date is 31 October 2003		
Domain Name	Creation Date	RDRP Notice Required No Later Than
example.com	14 October 1995	14 October 2004 (and by 14 October of every year thereafter)
example.biz	25 June 2003	25 June 2004 (and by 25 June of every year thereafter)
example.info	15 June 2003	15 June 2004 (and by 15 June of every year thereafter)
example.net	12 November 1997	12 November 2003 (and by 12 November of every year thereafter)
example.org	1 January 1993	1 January 2004 (and by 1 January of every year thereafter)
example.example.name	31 December 2002	31 December 2003 (and by 31 December of every year thereafter)

(Note: ~~WDRP~~WDRPRDRP Notices for registrations with creation dates of 29 February may be given no later than 1 March in non-leap years.)

What the ~~WDRP~~WDRPRDRP Notice Must Include: Each ~~WDRP~~WDRPRDRP notice must include a copy of the data elements ~~listed in a~~that are collected by registrars pursuant to Section 6 of the Registration Data Policy and contained in the registrar's database for each registration, plus a statement reminding the ~~registrant~~Registered Name Holder that under the terms of the registration agreement ~~the provision of false contact information can be grounds for cancellation of a domain name registration (See Registrar Accreditation Agreement, Section 3.7.7.2).~~

How, and to Whom, the WDRPRDRP Notice May Be Presented: The WDRPRDRP Notice can be presented via web, fax, postal mail, e-mail, or other appropriate means. It can be presented in one or more languages, including at least the language of the registration agreement. ~~The Notice may be presented to the registrant either directly or through the administrative contact for each registration.~~

Documentation Requirements: Registrars must maintain either copies of each WDRPRDRP Notice or an electronic database documenting the date and time, and the content, of each WDRPRDRP notice sent under this policy. ~~(See Registrar Accreditation Agreement, Section 3.4).~~ Registrars shall make these records available for inspection by ICANN in accordance with the usual terms of the Registrar Accreditation Agreement. ~~(See Section 3.4.3).~~ ICANN will consider proper notification to have been given for a registration if the registrar can show that a WDRPRDRP Notice meeting the requirements stated above was given at any time in the year before each anniversary of the registration's creation date (for anniversary dates on or after the Compliance Date).

Model WDRPRDRP Notice: In order to assist registrars in preparing the required notice, ICANN has provided the following Model WDRPRDRP Notice:
