

Amendment No. 1 to the dot-CAT Registry Agreement

ICANN and Fundacio puntCAT agree that the following modification is made to the 23 September 2005 dot-CAT Registry Agreement:

Appendix 6

[Old Text]

B. Additional Second-Level Reservations. In addition, the following names shall be reserved at the second level:

- All single-character labels.
- All two-character labels shall be initially reserved. The reservation of a two-character label string shall be released to the extent that the Registry reaches agreement with the government and country-code manager, or the ISO 3166 maintenance agency, whichever appropriate. The Registry may also propose release of these reservations based on its implementation of measures to avoid confusion with the corresponding country codes.

[New Text]

B. Additional Second-Level Reservations. In addition, the following names shall be reserved at the second level:

- All single and two-character labels that were previously reserved by the Registry in the Registry Agreement may be allocated through ICANN accredited registrars, based upon implementation of a request for proposals process in which the Registry will evaluate the suitability of the applicant and the benefits of the allocation for the Catalan cultural and linguistic community.

The parties have duly executed this Amendment as of the date last written below.
