

Amendment No. 1 to the dot-travel Registry Agreement

ICANN and Tralliance Registry Management Company, LLC (Tralliance) agree that the following modification is made to the 5 May 2005 dot-travel Registry Agreement:

Appendix 6, Schedule of Reserved Names

[Old Text]

B. Additional Second-Level Reservations. In addition, the following names shall be reserved at the second level:

- * All single-character labels.

- * All two-character labels shall be initially reserved. The reservation of a two-character label string shall be released to the extent that the Registry reaches agreement with the government and country-code manager, or the ISO 3166 maintenance agency, whichever appropriate. The Registry may also propose release of these reservations based on its implementation of measures to avoid confusion with the corresponding country codes.

[New Text]

B. Additional Second-Level Reservations. In addition, the following names shall be reserved at the second level:

- * All single and two-character labels that were previously reserved by the Registry in the Registry Agreement may be allocated through ICANN-accredited registrars, based upon implementation of a phased allocation program as further set forth in Appendix 7.

Appendix 7, Section 9 Additional Services

[New Text]

Tralliance One and Two-Character Allocation Program (“Allocation Program”). The domain names included within the scope of the Allocation Program shall be limited to one and two-character dot-travel domain names. Tralliance reserves the right to not allocate all one and two-character dot-travel domain names.

Pursuant to the Allocation Program, Tralliance may elect to allocate the domain names by applying one or more of the following processes: 1) limited allocation of up to 10 such domain names to the registry for its own use, 2) auction, 3) request for proposals and allocation based on evaluation criteria, or 4) first come, first served registration.

The parties have duly executed this Amendment as of the date first written below.
