Questions for Each Territory

Respondent's Name: Anne-Marie Eklund Lowinder
Title: Quality & Security Manager
Organization/Affiliation: .SE (Internet Infrastructure Foundation)
Mailing Address: PO Box 7399, SE 103 91 Stockholm, Sweden
Phone: + 46 8 452 3500
Fax: + 46 8 452 3502
Email Address: anne-marie.eklund-lowinder@iis.se

Q1. Is your territory interested in obtaining an IDN ccTLD during the fast-track process?

A: Yes

Q2. Do you know what the IDN ccTLD domain name(s) is/are likely to be?

A: Yes

Q: If yes, please specify the IDN ccTLD domain name(s) in your official language and in English.

A: The domain name is the full name of the country in Yiddish, which is the only one of the five official minority languages that is written with a non-Latin script.

> **English = Sweden**
> **Yiddish = שוועדן**

The A-label representation of the Yiddish name (which in romanized form is "shvedn") is xn--7dbda5bn3b

Please note that the Swedish language, itself, and the other official minority languages of Sweden use extended Latin alphabets and are thus likely to figure in the discussion of IDN TLDs when their delegation becomes available on a full production basis. We regard it as extremely important for the policies underlying that action to provide a mechanism for the reservation of extensive and short-form representations of a country's names in its official languages, without requiring that its government, or an authorized agent of that government, be obligated to register them actively.

Q3. If no, what official language(s) and script(s) would be used?
Language: Script:
Language: Script:
Language: Script:

A: N/A
